BHP (Brake Horsepower) is a maximum value measured by the motor manufacturer with no pump installed. Dry weight is shipping weight, including package and wooden runners. Dimensions, capacities and weights are approximate. Specifications are subject to change without notice. Spa images have been digitally rendered and may or may not show optional features.

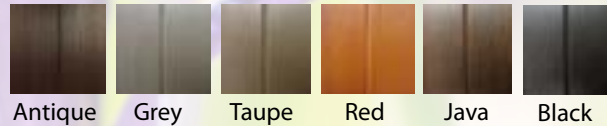

Acrylic Shell Colors

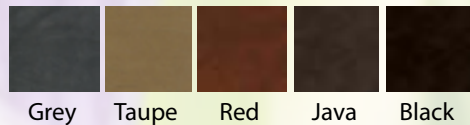

Kingwood Maintenance-Free Cabinets

Maintenance-Free cabinets will not rot, rust, warp, deteriorate or require replacement. Panels are made of a durable, synthetic material that can withstand the harshest weather conditions. This all-weather durable, fade-resistant and stain-resistant Kingwood cabinet requires no painting or staining.

Spa Cover Colors

The ASTM Deluxe safety cover adds insulation value and protects your spa. The foam cores are virgin, polystyrene foam tapered from 4" to 2.5" to allow water to run off. Each foam core is then sealed to help prevent water absorption. Your spa cover will withstand the effects of sun and weather, saving energy with lower total cost of ownership.

STANDARD FEATURES

Aesthetics

- **Stainless Steel Jets** - The corrosion resistant fixture covers add an elegant, glimmering accent.
- **Blue LED** - This cool, blue LED light creates a calming and tranquil spa environment.

Green Technology

- **ArcticPac Insulation** - This double layered insulation system features a reflective sheet of bubble-foil lining the inside of the cabinet, combined with a coat of Icynene™ foam that adheres to the spa's shell and hose connectors. ArcticPac Insulation retains heat, keeping the spa energy-efficient and the water at a tropical temperature.
- **Kingwood Cabinet** - Synthetic cabinets weigh less than wood, yet are more resilient and durable. Unlike wood, these cabinets will not crack, chip, warp or rot.

Protecting your Spa

- **ABS Bottom** - This ABS bottom is fully insulated and completely seals the underside of the spa keeping it impervious to moisture, pests, and time.
- **Spa Cover** - The ASTM Deluxe safety cover helps to preserve your spa, conserve energy, and is engineered to protect your investment and your loved ones.
- **1 Year Warranty*** - Lifetime warranty on the shell, and a one year warranty comes standard on parts, labor and plumbing.

OPTIONAL FEATURES

- **Ozonator** - The ozone water treatment provides crystal clear spa water by killing bacteria with fewer harsh chemicals.
- **Multicolor 10 LED** - Enhance your spa with beautiful LED lighting, or saturate your spa with your favorite color using a multicolored spa light.
- **Full Foam Energy Efficient Package**** - Provides energy efficient Icynene™ full foam. This additional insulation package makes the Garden Spas even more environmentally friendly.

* See manual for more information. **All spas must have Full Foam Energy Efficient Package for shipment to California and Connecticut.
